SPORTS DAY TRACK MEET AT STADIUM

May Be Keenest In McGill's
Athletic History.

GOOD PROSPECTS.

Winners Will Wear McGill
Colors At Varsity Meet.

Taking an easy work-out yesterday, the track men rested up in preparation for the big meet at the Molson Stadium this afternoon. Everyone of them expressed the opinion that the losers would have no alibis to offer for their defeat and in every case the best man should win. The only regrettable thing about the meet is the fact that some men of ability will be unplaced owing to the exceptionally high form shown by the athletes in general.

The meet will start at 2.15 o'clock this afternoon and promises to be the biggest University Field day held in the history of the college. Yesterday the weather was not very promising for the meet but, if the rain stops, it will help more than hinder the meet as the heavy roller will be put over the track this morning and it should be in perfect condition by the afternoon.

There has been a brisk demand for tickets during the last few days but as none of the seats will be reserved, it was decided to sell them only at the gate. Some of the most important events will be at the opening of the meet and those who are at all late are sure to miss a lot of excitement. The pole vault and the one hundred yards dash will take place together at the opening of the meet and both of them are feature events.

Coach Van Wagner is very pleased at the showing of his men and expects that they will be even better in competition than they were at the daily workouts held under his direction. It is expected that some new men will surprise the spectators who are depending on the old standbys to carry off all of the honors. In fact, it is from some of the new men that much is expected.

Great pains have been taken to secure an efficient list of officials and there should be no complaint about the decisions rendered in any of the events. W. Roughton, who is known as the best starter in Eastern Canada will handle the pistol and everything is sure to be all right at his end of the meet. The judges and timekeepers include men who have been officiating for years past, while Dr. Lamb will act as chief clerk of the course.

Everything that could be done in the way of setting good apparatus and equipping the men fully has been done and, as a result, they have all that is necessary to prepare them for actual competition. In some cases it was almost impossible to get the necessary equipment and orders were sent all over the country before it could be obtained.

The track meet appears to be of more interest to the students than rugby, just at the present time, if that is possible, and they are all (Continued on Page 3.)

FACULTY OF LAW HOLDS ELECTION

New President Elected For
the Law Undergraduate
Society.

After a closely contested fight W. Lighthall was elected yesterday to the presidency of the Law Undergraduate Society. He secured 53 votes, thus gaining a majority of 20 over his opponent, John Gallery, who got 33.

The most interesting feature of the election was the high percentage of members of the faculty who voted. Counting in six ballots which were spoilt, the number of votes recorded was 92. The number of students in the faculty is 122, which means that 75 per cent. voted in the election. The law students set a good example to other faculties in the matter of taking an interest in their Undergraduate Society.

What's On

TO-DAY

9 a.m.--Annual Golf Match--Staff vs. Students.
2.15 p.m.--University Sports.
8 p.m.--Social Service Club at the Hall.

COMING

Oct. 16--Mechanical Club visit to Vickers' plant.
Oct. 18--Thanksgiving Dinner at Strathcona Hall.
Oct. 19--Arts '22 Reunion.
Oct. 20--Maccabean Circle.
Oct. 20--Maritime Club.
Oct. 21--Dental Society meeting.
Oct. 30--Queens at McGill.
Oct. 25--Chess Club.
Nov. 6--Varsity at McGill.

ROOTERS MEET AT THE UNION MONDAY NEXT

Great Enthusiasm At Yesterday's Practice.

BANDSMEN WANTED.

Noisemakers Harmonizing
Under Thompson and Wain.

The efforts of Messrs. "Teedles" Thompson and Joe Wain have not apparently been fruitless. Yesterday's Rooters' Club practice at the "Hall" was much better attended than the one on Tuesday. The seats were all filled, and the walls of the Assembly Room were lined with enthusiastic supporters of the team. The band was not in evidence, as all the instruments have not yet been procured, but "Teedles" assured us that it has six or seven new members, and is coming along fine.

The four hundred rooters present opened proceedings with a hearty M-C-G-I-L-L, and the volume of sound resulting augured well for the support the team will get on Monday. They then tried over the locomotive yell, "Give 'em the Axe," and also "K-K-Kootie," a parody on the well-known song of similar name. Several more "old reliables" followed, and then Frank Genest arose and demonstrated a new rendering of an old yell, the old reliable "Get That Ball, McGill!" (three times over), followed by a frenzied hehest, "You GOT to Get It!"

Thompson, who was in shirt sleeves, had to retire at this point, exhausted by his efforts, and Joe Wain took charge. He "conducted" until about 5.45, when "Teedles" decided to adjourn the meeting, not, however, without a few words of great importance to everybody. He strenuously reiterated that new yells, parodies and bandsmen were needed. Now, then, men, if you aren't playing on the team, surely you can at least help to urge them on to victory. It does not require much inventive genius to write a parody on some popular chorus, nor is a great deal of literary ability essential to be able to write a yell. As to the bandsmen,--well, if you can play, you can play, and all you have to do is to turn up at the practices and do your little bit.

The most important thing announced, however, was that for Monday's game all rooters will meet at the Union an hour before the game and march up in force to the stadium. Yes, we know it's a holiday, but come on, join the crowd and yell your head off!

Be sure and get Saturday's "Daily" for the new yells and songs which will be printed in it. Cut them out (Continued on Page 2.)

NO "DAILY."

There will be no issue of the "Daily" on Monday, Oct. 18th (Thanksgiving Day). Rooters are especially asked to note this, as all songs and yells for the M.A.A.A.-McGill game will be published in Saturday morning's issue, which they are requested to retain for the game.

RUGGERS WILL STAGE FIRST GAME TO-DAY

Western Canadians To Play
Against Combined Team.

SELECT REP. TEAM.

Easterners and Old Country
Players Have Strong
Fifteen.

To-day at 10.30 a.m. local Rugby enthusiasts will stage their first game of the season on the old campus. A team composed entirely of Westerners will be opposed by a fifteen selected from Eastern Canada and the United Kingdom. The purpose of the game is to bring out McGill football talent from which a representative team will be selected to play against the Montreal Rugby Club on Thanksgiving Day.

A snappy practice was held yesterday afternoon, and a number of first-class players were uncovered. Owing to the fact that candidates have only been practising since Monday, most of them are lacking in condition. However, a keenly contested match is expected to-day when the men from the West meet the united opposition of the rest of the Empire.

The line-up for to-day's game follows:

Westerners	Positions	All Others
Helmeke	Full back	Parsons
McDougall	Three-quarter	Gooch
Day	"	Buchanan
Curtis	"	Kelley
Hough	"	Lawrence
Beveridge	Half back	Clarke
McNamee	"	Dawson
Branchley	"	McIntosh
Lochead	Forwards	Blundell
Clelland	"	Congleton
Jones	"	Trites
Forrester	"	Patterson
Whitden	"	Durrant
Whiteside	"	Palmer
Kemp	"	Lawrence, A. R.
Price	Spare backs	Budden
Turpell	"	McLeod
O'Hagan	"	McIntosh, A.
Leckie	"	Lea

All Others: Spare Backs--Ackman, Gosnell, Hooper. Spare Forwards--Branch, Ward, Murray, Duncan, McDonald, Humphrey.

A departure from the regulation game will be the playing of three fifteen-minute periods instead of the regular halves. This change is made in order to permit of liberal substitution of spares. The object of the game is to bring all the likely men into action, and all spares will get a chance to play part of the game.

Players are urged to be on the field at 10.15 a.m. sharp. Mr. McKay, the genial secretary of Strathcona Hall, will referee. All men who are not playing to-day, and who have in their possession club boots, are requested to bring them to Mr. Palmer at Strathcona Hall at 10 a.m. The boots are needed for the game. The kick-off takes place at 10.30 a.m. sharp, and all players are urged to be prompt on time.

CHESS PLAYERS ELECT OFFICERS

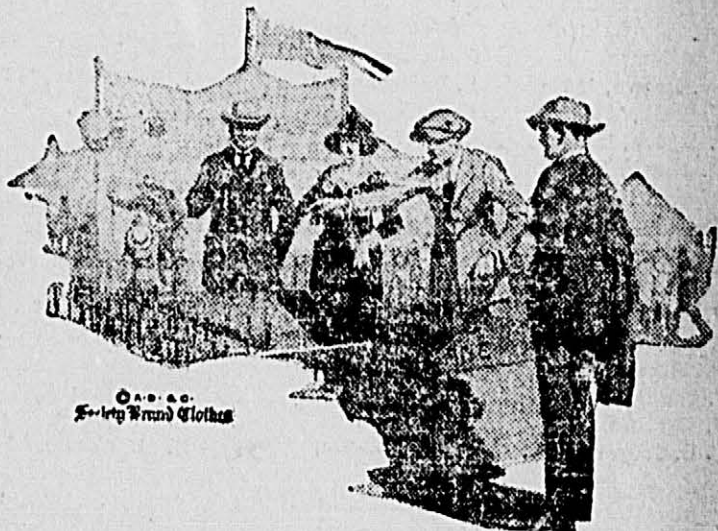

Beginners and Experienced
Players All Urged To
Turn Out.

The annual business meeting of the Chess Club of McGill University was held last night at the Union. The chief business consisted in the drawing up of the constitution and the election of officers. The officers elected were as follows:

President--H. S. Gordon.
Vice-president--R. Duberger.
Sec.-treasurer--D. Cowan.
Executive--H. C. Johnson, K. W. Hunter.

A team has been entered in the City League of Montreal, and it is therefore imperative that as large a number of members as possible turn out for the meetings. The first meeting (Continued on Page 4.)

CASE THE PUBLIC

Public recognition of the splendid values and service the Case Shop is giving is evidenced by the business we do--a business, we are pleased to say, is exceeding our most optimistic hopes. Here are hand-made Furnishings and hand-tailored clothes of finest British woollens, styled perfectly and modestly priced.

FRIDAY OCTOBER 15, 1920.

THE TRACK MEET

The University track meet to be held this afternoon ranks as one of the oldest of McGill's athletic institutions. Practically every year since the University was founded one day at the beginning of the session has been set aside as "Sports Day" and the college authorities have assisted towards its proper observance by suspending lectures for the day.

It is almost unnecessary to point out the "raison d'être" for this annual event—its object must be apparent to all. Not only does it afford an opportunity for a display of individual athletic brilliance but it serves also to foster the true McGill spirit by bringing into friendly opposition members of every year and faculty. There is a freemasonry of sport which has its roots in the normal man's ready appreciation of physical prowess, and there is nothing which helps to unite a college into a homogeneous whole so much as a common interest in sport.

Given favorable weather conditions, this afternoon's meet should prove a highly successful one from every point of view. Many of last year's contenders are with us again and it is entirely probable that several existing college records will be broken. The team to represent McGill in the forthcoming track-meet at Toronto will be chosen largely upon to-day's showing, and with this in mind it is expected that every entrant will put forth his utmost efforts. Great credit is due the Manager and other executive officials of the track-team for to-day's event and it is to be hoped that every McGill student will avail himself of this opportunity of demonstrating his appreciation of the men who have devoted so much of their time and energy to ensuring that McGill's track representation shall be the best of which she is capable.

SERVICES AT THE CATHEDRAL

Dr. Symonds Gives Special Talks For Students On Sunday Night.

During the past eighteen years the Vicar of the Cathedral, the Rev. Dr. Symonds, upon whom the University conferred the honorary degree of LL.D. several years ago, has preached series of sermons intended more particularly for students. The Vicar believes that the age in which we live demands a fresh presentation of Christianity, in which all forms, whether of Church government, of worship, or of dogma must be relegated to a strictly subordinate place. Christianity did not, he holds, come into the world in the form of creed, but of life, and the ultimate test of a Christian is not orthodox, nor is it a denominational test, but it is the following of Christ. In the setting forth to our age and country of this larger and more spiritual conception of Christianity the University graduate should have a large place. The truly educated, all-round man should take an interest in all the institutions of country, town and village. He should be a leader in the Church and state. Dr. Symonds' endeavor is to assist the student to arrive at a reasonable, broad and, at the same time, enthusiastic conception of Christianity, its claims and its value for the to-day. The first of these sermons for the current season will be in the Cathedral at seven o'clock Sunday evening, when the subject of faith and doubt will be dealt with. A complete list of the subsequent sermons will be found in the following columns.

VACANCIES FOR A FEW NEW MEN

"Daily" Staff Practically Complete—Semi-Annual Meeting Thursday.

While the list of reporters on the "Daily" staff at the present time embraces an adequate number of men from this year's classes, the Managing Board wish to advise any men with genuine newspaper talent, or men who have dormant journalistic ambition within their manly frames, that there is still an opportunity for a few more reporters on the 1920-21 staff. The semi-annual meeting of the "Daily" Editorial Staff, originally to have been held yesterday afternoon, was postponed until one week later. It is hoped that the entire staff will keep the date open, as assignment arrangements for the year have in some cases yet to be made. All new men, even those whose only editorial experience as yet has been a pair of shears, are expected to attend. The meeting is called for Thursday, Oct. 21st, at 5.15 p.m.

PENN. STOPS ANCIENT RULE.

The so-called "degree rule," by which athletes holding degrees from other colleges have been barred from playing on University of Pennsylvania teams, has been abolished by the Penn. athletic council. This change will become effective January 1, 1921. The three-year limit, however, will be observed, and no student will be allowed to play in varsity competition for longer than that time.

CHEAP RATES

Provided that a sufficient number of students signify their intention of making the trip to Toronto to witness the McGill-Varsity Intercollegiate rugby fixture on October 23, a special reduced rate for the journey will be arranged with the railway company. There are many students who are keen to take the jaunt down to the lair of the Varsity squad that they might root for the Red and White, but to date the increased cost of fares seems to make the proposition too steep to be considered by most of the enthusiasts. If approximately 150 supporters of the team would agree to go providing they received a rate that would save them about five dollars, special arrangements will be made to transport the contingent to the Queen City. To this end the "McGill Daily" has opened a list and all those who would make the trip on condition that a cheap rate is obtained are asked to call in the Editorial office at the Union and sign their names. Come on now rooters, all who can, sign up early, and let McGill have a strong following of supporters when the team takes the field against Varsity in what will prove to be the most critical game of the Intercollegiate series this season.

ARTS '22 TO INAUGURATE NEW CUSTOM

Theatre Party Were At the Gayety

TUESDAY NIGHT.

To Be Followed By Copious Feed At the "Hamand."

Arts '22 will hold a class re-union Tuesday night, October 19th. Every man who was a member of this class last year will remember that before the end of the 1919-20 session it was decided to hold such a function immediately on the resumption of sessional work this fall.

The re-union will take the form of a theatre party at the Gayety followed by a supper afterwards. In order that all those attending may get seats together at the theatre, it is requested that they hand their names to one of the class officers before Tuesday morning at the very latest.

Arts '22 is the first year at McGill to hold a re-union of this nature before graduation, and it is certain the experiment will be a success. The many members of Arts '22 who are now scattered in the various faculties of the University will welcome an opportunity of getting together informally once more, to applaud the "gentiles petites filles" of the East End Theatre and to generally, collectively and individually enjoy one big feed at the Rita-Walton.

Correspondence

The "Daily" is not responsible for the sentiments of letters published in the correspondence column. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE side of the paper ONLY.

No communications will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

To the Editor, "McGill Daily": Sir,—I regret I assumed that "Spartacus" was in any way officially connected with your paper, and take this opportunity of telling him so. As for my other remarks, I stand by them.

Apparently the "McGill Daily" has no policy. It may have, but from ordinary indications it has not. How many of its eager readers can say what its policy is? "Medico's" letter, if it lacked sense, read very well. Might I ask that gentleman whether he approves of the fostering of a Canadian nationalism? Perhaps he does not understand what I mean. I shall explain. We are legally a nation, and we have extra territorial power and may sign treaties. Since we can make peace independently, presumably we may wage war. We are therefore a nation despite the B.N.A. Act. The proletariat, as a body, are not conscious of the fact. Should we arouse, in our own small way, this conscience in the minds of the hundreds of students, who for six months congregate together and then disperse over the length and breadth of Canada? These students are the leaders of the country's thoughts and activities of tomorrow, and once given a lead by such an organ as the "McGill Daily," their influence is incalculable. Does "Medico" approve of waking up this innate conscience, or is he "a man with soul so dead, who never to himself hath said this is my own, my native land"? I am sure if he is a Canadian that Canada comes first, and the rest—My remarks to the McGill Y.M.C.A. I reiterate. It should have no place in University activities. Why not a McGill Salvation Army and Hostel?

NOTICES

LOST.

Waterman's Ideal Fountain Pen lost in Chemistry Building. Will finder please return to the Janitor of the Chemistry Building.

DENTAL SOCIETY.

Dr. Thornton's address to the McGill Dental Society on "Specialists and General Practitioners in Dentistry" will take place on Thursday, October 21st, in the New Medical Building. G. M. HALE, Secy.-Treas.

THANKSGIVING DINNER.

The Ladies' Auxiliary of the McGill Y.M.C.A. are serving a free dinner for out-of-town students on Monday evening, Oct. 18th, in Strathcona Hall. All who desire to be present should sign their names at once on sheet posted on the bulletin boards at Strathcona Hall, or report at the office before Saturday.

MACCABAEAN CIRCLE.

The opening meeting of the Maccabaeon Circle of McGill University will be held in the form of a smoker, on Wednesday evening, Oct. 20, at 8 p.m., in the Red Room of the Fraternal Chambers, No. 1 Hutchison street, corner Sherbrooke. All members and students interested in its activities are invited to attend.

THE UNION.

Clubs and other Societies desiring to obtain the use of rooms in the Union for meetings, etc., must make application for same to James A. Lallan, secretary of the Students' Council. Considerable confusion has arisen in the past owing to failure to give due notice regarding the use of rooms and it is to be hoped that this can be avoided in future.

MECHANICAL CLUB.

The first trip of the Mechanical Club will be held on Saturday afternoon, Oct. 16th, to the plant of Canadian Vickers Limited.

The trip should prove of unusual interest to members, who should avail themselves of this opportunity to inspect Canada's largest shipbuilding plant. The company at present has a lot of work on hand—several ships on the ways, and one "Cut-in-two" boat in drydock.

Members will meet at the Union at 1.30 p.m. sharp, Sat., Oct. 16th. New members will be welcome and may enrol anytime.

LOST.

Will gentleman who found brown shoe after Rush last Thursday night leave it with Janitor at Union and oblige J. Perodeau.

CHESS CLUB.

There will be a meeting of the Chess Club on Monday, Oct. 25.

ROOTERS MEET AT THE UNION MONDAY NEXT

Continued From Page 1.) and bring them to the game on Monday.

There will be a practice for the band next Tuesday. All men who play any wind instruments of any kind—saxophones, cornets, trombones—are earnestly requested to turn out. Don't be bashful and shy, like Johnny in "You'd Be Surprised," but come along and bring your instrument. If you haven't one, one will be found for you. But for Heaven's sake, come! There will also be several workouts of rooters at the stadium during next week. ("O! Shag" has asked for this several times during this week.)

One last word. Monday's game isn't a league game, we know, but nevertheless it's important. So turn up at the Union on Monday with a strong voice, and don't forget Saturday's "Daily"! Bring your friend—and the "Daily"! Also, tin whistles, "kazoots," horns, etc., will be useful.

I regret that Mr. Peter MacLean must contain his curiosity for a while. "WATCHER."

UNIV. LIBRARY HAS NEW BOOKS

List Of Additions For Week Of October Fourth To October Eleventh.

Additions to the Library October 4th to October 11th, 1920:—

Gildemeister, Edward and Hoffmann, G. T. R.—The volatile oils, tr. from the German. 2 vols.

Meyer, A. F.—The elements of hydrology.

Peddle, R. A.—Fifteenth Century books. Conspicuouscunabulum. 2 vols.

Jones, H. F.—Samuel Butler. 2 vols. Benjamin, L. S.—The life and letters of William Beckford of Fonthill, by Lewis Melville, pseud.

Hodges, Frank.—Nationalization of the mines.

Waley, Arthur.—Japanese poetry, the "Uta."

Tupper, Frederick, and Tupper, J. W. (eds.)—Representative English dramas from Dryden to Sheridan.

Marvin, F. S.—Recent developments in European thought.

Budge, E. A. T. W.—By Nile and Tigris. 2 vols.

Hardie, Martin, and Sablin, A. K.—War posters.

Bullock, A. E.—Westminster Abbey and St. Margaret's Cathedral.

Farquhar, J. N.—An outline of the religious literature of India.

Leonard, R. M. (comp.)—The poetry of peace.

Beckett, Grace (comp.)—Songs of joy. Eddington, A. S.—Space, time and gravitation.

Sorley, W. R.—A history of English philosophy.

Quick, John.—The legislative powers of the Commonwealth of Australia.

Trotter, Eleanor.—Seventeenth Century life in the country parish.

Sproston, Charles.—Palmerston and the Hungarian Revolution.

Peddle, R. A.—Metallurgical Bibliography 1901-1906.

O'Sullivan, Seamus.—The Rosas and other poems.

Mont, P. S.—In the net of the stars. Casement, Roger.—Some poems.

Adcock, A. St. J.—For remembrance. Lee, W. L. M.—A history of police in England.

Cheng, Shi-Cung.—Modern China. Armitage, Ella S.—The early Norman Castles of the British Isles.

Dywater, Ingram.—Four centuries of Greek learning in England. Library economics.

Stewart, J. D., and Clarke, Olive E.—Book selection.

Shafter, S. R.—The English ode to 1660.

Phillip, A. J.—The production of the printed catalogue.

Clarke, A. L.—Manual of practical indexing.

Savage, E. A.—Manual of descriptive annotation for library catalogues.

Coutts, H. T., and Stephen, G. A.—Manual of library book-binding.

Brown, J. D. (ed.)—Guide to librarianship.

Brown, J. D.—Library classification and cataloguing. Open access libraries, by J. D. Stewart and others.

Roebuck, G. E. J., and Thorne, W. B.—A primer of library practice.

Sayers, W. C. B.—Canons of classification. An introduction to library classification.

EMMA SHEARER WOOD LIBRARY OF ORNITHOLOGY.

Additions, October 4th to October 11th, 1920. American ornithology for the home.—1901-1906:—

Wood, C. A.—The eyes of the burrowing owl. Nebraska Ornithologists' Union.—Proceedings at annual meeting—1899. Florida Audubon Society.—Florida Audubon bulletin—1919-1920. Michigan Ornithological Club.—Bulletins—1897-99, 1903-05. The oologists' exchange and mart—1919-20. The ornithologist and oologist—1881.

Audubon Societies' National Committee.—Educational leaflets, Nos. 1 to 100. The petrel—January, 1901. The Iowa ornithologist—1895-96, 1900.

Park Museum.—Bulletin—1909-20. The young oologist—1884-85.

The despot uproots the tree, the wiser master only prunes off the superfluous.

FRESHIE YELL REVERBERATED ROUND CAMPUS

Sophs Give Freshmen Taste Of Their Generosity.

WORKS OF ART.

Freshmen Cheered Sophs, Thanking Them For Entertainment.

During the first week of the college session our verdant Freshies were treated to several private entertainments at many of Montreal's leading cabarets. The friendly Sophs, well aware of their absolute abjectness and the inexperience of their youth, out of the goodness of their hearts decided to give them a public welcome and some friendly words of advice regarding such places of amusement as are suitable for them. Many score of our Freshies are now indebted to the Sophs of Old McGill for this great favor conferred upon them.

The Sophs who deserve special mention in these columns, however, are those of Medicine, Arts and Commerce. Due to the completeness of their organization and to the ability of their leadership, they succeeded in giving their many Freshie friends a grand and royal reception on Tuesday last. The old McGill spirit came to the fore, and her walls re-echoed many times over the good old yell as the wily Sophs marched their victims down that winding path that leads to the old McGill campus. However, let's begin at the beginning.

At 5 p.m., Tuesday, October 12, 1920, while the Medical Freshies were still struggling with those mighty problems that the science of physics holds in store for them, the Sophs quietly arranged themselves in small groups and waited near-by. As the Freshmen strolled out, the Sophs made haste to inform them that a banquet was prepared at Freshman Inn, and that their presence was requested. Needless to say, the Freshmen consented, some willingly, some unwillingly, and then the party wended their way towards the slopes of Mount Royal. The party numbered some fifty odd Freshmen from Medicine. The nominal sum of twenty-five, sometimes fifty, cents was charged. After these Freshies had partaken of the refreshments they proceeded to amuse those Sophs who were left in charge, while the great army of Sophon the stadium started out in squads of twenty to different districts of the city. Motor trucks were on hand for those whose districts were far off. From seven great army of Sophs on the stadium in with their captives well secured.

Upon reporting to headquarters, the insignia of a Frosh was painted on their brows, cheeks and nasal extremities, and then they were handed over to the proper authorities. Speeches, songs and recitals followed, to the great amusement of the prominent and well known gathering present. At ten p.m. the Freshies were then lined up, 150 in number,

DINNER TO BE GIVEN MONDAY

Ladies' Auxiliary To Provide For Out-of-Town Students

Those students who hail from out of Montreal will no doubt have been wondering where they can go to adequately celebrate the festival of Thanksgiving. Let their minds be set at rest. All they have to do to receive a "slap-up" excellent dinner is to sign their names on the bulletin boards at Strathcona Hall, and, of course, attend the dinner on Monday evening. Everyone is cordially invited, and no doubt a good number will turn up. This is an established custom, and helps greatly to lend a home touch to Thanksgiving Day for out-of-town students.

It is entirely due to the efforts of the Ladies' Auxiliary of the Y.M.C.A., who for a great many years have made a point of giving this dinner every Thanksgiving Day. Hall to the Ladies' Auxiliary! May they continue to do so for many years to come. Great credit belongs to them for this generous work.

Those wishing to partake of the dinner will confer a favor by passing in their names before Saturday, so that an idea of how many are going to be present may be obtained.

and, under heavy guard, were led quietly past the R.V.H. to University Street and then to the old college campus. Various halts were made in order that the Freshies might use their lung power to its full extent, in giving their own sweet little Freshie yell. During the march the Sophs pointed out to the eager ones the many places of interest in the college grounds. On the campus in the form of a circle the Freshies then entertained all those present with their yell.

A little doubling with one shoe was also in order. The president of the Freshies was then called upon. With that wisdom now instilled into him by the Sophs, he bade his comrades to give three hearty cheers for their Sophomore hosts. This they did. Words of advice from a friendly Soph then poured into their ears. Any acts of rowdiness on their part, they were told, would not be tolerated, the good name of old McGill must be always upheld by them, and everything that would tend to keep up the old traditions of the college must be ever their chief aim. A real spirit of good fellowship throughout the whole affair was in evidence, and all those who were responsible for the entertainment are to be commended for the orderly manner in which the affair was managed.

A good old hearty McGill yell was given by all present, Freshies included, and then the victims were released, whereupon they retired meekly and willingly to their respective homes.

SPORTS DAY TRACK MEET AT STADIUM

(Continued from Page 1.)

backing their favorites to win in the events in which they are entered. Of course, the competition between the years will hold the usual amount of interest to the men, but it will be only second to the interest in the individual men, inasmuch as they will be the representatives of McGill at the inter-collegiate meet during the following week.

Inasmuch as it is possible that some of the college records will be broken, the list of records on the official programme will be closely watched. Some of the records that have stood for a number of years are among those that are likely to go by the board.

As was the custom in past years, it is expected that the majority of the college staff will be present at the games. The track events have always proved interesting to the fair damsels at the Royal Victoria College and there should be a large delegation on hand to give gentle cheers when their favorites win.

As the meet to-day gives the competitors a chance to win small "M's," there will be an additional reason to urge them to do their best. However, the main inducement is the chance of gaining the honor of representing their Alma Mater on her 'varsity track team. It is expected that the team will be chosen after the meet and it should be announced early next week.

It is fortunate that the weather has not become too cold and the men will be probably able to go at a better clip than will be the case a little later on in the season. It is impossible to go at a high clip in severe weather.

There have been a few post entries since the programme went to print and it is possible that one or two more will be accepted owing to the fact that they were unable to register in time.

The following is the list of officials:

REFEREE—Prof. E. Brown.

BISHOP McDOWELL EULOGIZES BIBLE

Makes Plan For Greater Union Of Denominations.

Last night a large gathering, not only of those connected with the University, but also representative of the whole city, listened with intense interest to the stirring speech given by Bishop McDowell, of Washington.

Dr. Smyth, of the Wesleyan Theological College, opened the meeting by giving a brief outline of the four Co-operative Theological Colleges from their affiliation in 1912. He told of the aims, the advantages and the progress made during the past eight years under the joint management.

After a short prayer the Rev. Dr. Rexford, principal of the Diocesan Theological College, in introducing the speaker, emphasized the point that the four colleges were in a better state of perfection than they had ever been before. Also that their act of co-operation eight years ago was the first of its kind ever carried out. Since then many other colleges have tried the example with success. Dr. Rexford in a few words then told of the universal fame which Bishop McDowell had, of his connection with many of the American universities from coast to coast. The Bishop was very popular at the Des Moines Convention.

Bishop McDowell, in his well-known manner and with his excellent sense of humor, started his address with two questions: "What is the Bible?" and "How does there happen to be a Bible?" These two questions were answered in a most excellent way by concrete examples. He stated that every age had its right to ask questions. If the door of questions be shut then the window of despair opens. In explaining his point he considered the case as applied to English literature. We get our English literature because "literature comes out of life." "Literature returns to life, to others, to enrich and strengthen it." Back of English literature is the British spirit, and to color his point he suggested Tennyson's "Charge of the Light Brigade." First the deed, then the song. First the hero, then the poem, but not vice versa. So in scripture—first the people God inspired in seeking God, then the history of them in the Bible. The basis of the Bible; it is not magic—it is vitality. First the delivery then the praise. Never until we get a more perfect person than Jesus can we get a better book than the Gospels. This explains how we got a Bible.

Since God came into man that is why we have a Bible.

SOCIAL SERVICE.

The first meeting of the University Social Service will be held in Strathcona Hall, to-day, at 7.30 p.m. The business will be the launching of the year's programme and the preparation of the "Block Survey," "The Newsboys' School, etc., etc.

Members please note this and come. All University students are invited, both men and women. We can provide you with a sideline for the year. Be a Daniel and come and see us.

He hath not lost all who hath one throw to cast.

Every animal but man keeps to one dish.—Spectator.

SURGEONS HAD BUSY SESSION IN CONVENTION

Wide Variety Of Subjects Were Discussed.

GAVE DEMONSTRATION

Very Interesting Observations On Lung Diseases Made.

Another busy day was spent by the Clinical Congress of the American College of Surgeons, with clinics at the hospitals in the morning, special clinical demonstrations in the afternoon and evening at the ballroom of the Windsor Hotel.

In the afternoon the programme was opened by Fulton Risdon, M.D., of Toronto, whose paper was entitled "Mandibular Bone Grafts and Facial Reconstruction Surgery." His experience was gained largely in war surgery, and he showed many instructive slides of examples of rhinoplasty and all types of facial reconstruction.

Dr. C. L. Starr, in discussing the same subject, remarked on the great patience needed in such work. He disagreed somewhat with some of Dr. Risdon's methods, notably the use of metal wires in fastening bone grafts. Maj. C. W. Waldron followed with a short talk, justifying the use of wires inasmuch as X-rays taken two or three years after the operation showed no defects, and the end results were quite satisfactory.

Dr. John H. Cunningham, of Boston, followed with a paper on "Metastatic Gonorrhoeal Arthritis." He emphasized the importance of an adequate differential diagnosis. He thought that surgical removal of the common fact was the best, although palliative treatment should be tried at first. He found that the disease was often due to pyogenic organisms, staphylococci, being a frequent cause. Dr. F. B. Lund, of Boston, discussed his paper, agreeing that the end results of Cunningham's treatment had proved successful.

Dr. F. H. MacKay and Dr. F. J. Tees, both of Montreal, then spoke on "Diagnosis and Treatment of Peripheral Nerve Injuries." Dr. MacKay first took up the diagnosis in a thorough and efficient manner. Dr. Tees then discussed the treatment of the problem. He always waited three months, and if the wound had not healed by then, an operation was performed. Careful splinting to prevent active antagonists from stretching the paralyzed muscles was very necessary. Even though the divided nerve was several inches short, he never had to resort to a nerve graft, tension on nerves does not seem to do any harm. Generally, very good results were obtained, and he was very optimistic about the future of nerve surgery.

Albert Carless, of London, commented on the latter paper, agreeing with Dr. Tees in holding optimistic ideas in regard to this work. He had found that tendon transplantation was often good instead of secondary nerve suture. The musculospiral nerve showed the best end results, with the sciatic and median nerves also satisfactory. The ulnar nerve was more difficult to deal with, owing to its large number of small branches. In actual operation, gentleness in handling and warmth were essential. When testing a muscle to see whether it is functioning or not, it is important to test it with a minimum load. The study of the action of the individual muscles was a field in which there was much room for progress. In conclusion, Mr. Carless quoted Quain, who said that there are more mistakes made by lack of observation than lack of knowledge.

Following this, Dr. Keenan, of Montreal, read a paper on "Late Results of Foreign Bodies in the Lung." He gave a complete exposition of the subject, mentioning that while formerly it was usual to leave foreign bodies embedded in the lung, it was becoming more common to take more drastic steps, as methods of removal were becoming more well known.

Dr. F. G. Finley, of Montreal, and Dr. W. Meyer, of New York, discussed this subject, the latter expressing the opinion that all bullets should be removed.

Sir Berkeley Moynihan followed with some observations on Dr. Keenan's subject, remarking that it was still a great question whether a missile should be removed from the chest or not. A great point was that the men who have had the operation for it were always enthusiastic about the results obtained. It has been found that the lung around the foreign body is always infected, and to a greater extent than can be gathered by the X-rays or physical examination. He was of the opinion that if, in addition to the ordinary symptoms, the missile was large and irregular with retraction of the chest and pushing over of the diaphragm from the affected side, an operation should be performed. Fifty-six per cent. of patients made a perfect recovery.

YANKEES TALK ON POLITICS AND FOOTBALL

Snappy Meeting Held In the Union Last Night.

EATS NEXT THURSDAY.

Americans From Everywhere Are Welcome At Meetings.

Last night the American Club of McGill started activities for the new year with a pleasant, snappy meeting in the common room of the Union. The members were slow in arriving, but order was called at about 8.15. Several new men than introduced themselves, and reports of last year's work were read. It was reported that last year's president, Mr. Karnes, is engaged in engineering work in Chile, and that Dr. Waugh, the secretary, who has also graduated, is at work in the Royal Victoria Hospital here. Then some plans for the coming year were made, and it was decided to hold another meeting on Thursday evening next, and serve some little refreshment as a starter. Although it seems far in the future, work was started on the annual Thanksgiving dinner, which has become a fixture with the club, and is always enjoyed by all.

After talking for some time on plans and ways and means, the conversation veered onto football and the coming election. All sorts of opinions were expressed, but Senator Harding seemed the favorite in the political race. One member even going so far as to state that "I'm going down to see Harding inaugurated next March."

Those of the students who have not yet attended a meeting with their fellow countrymen don't realize what they are missing. There are fellows in the club from all over the U.S., and to get together and discuss subjects of common interest is not only entertaining but instructive as well. And there are, naturally, some topics in which we Americans are interested which our Canadian friends know and care little about.

We know that there are even more Americans at McGill than turned out last night, and we want them all to plan to come next week. They can be of aid to the American Club and it can be of aid to them. Of course, it is realized that many had gone home over the week-end holiday, but there will be no excuse for them next week, and we are planning on a large attendance. It doesn't matter whether one is from Maine or Texas, New York City, Denver, or even Chicago, he'll have opinions of interest to the rest of us, and ours may be of interest to him. There'll be cats for all, next week, and arguments enough to hold everyone's attention.

As well eat the devil as the broth he is hollid in.

We hug deformities if they bear our name.—Glanville.

All delay is irksome, but it teaches us wisdom.—Syrus.

Should you a cistern with rose water fill,
A dead dog would defile it still.
—Oriental Proverb.

PREPARE FOR HOLIDAY GAME AGAINST M.A.A.A.

"Shag" Puts Seniors Through Fast Work-Out.

SPARES SHOW FORM.

Prospects Bright For Thanksgiving Day Match.

Despite adverse weather conditions yesterday afternoon, the McGill Rugby squads put in another stiff workout at the Percival Molson Memorial Stadium, and gave the few spectators who braved the rain to travel up to the field an exhibition of what a squad goes through when it is down to rigid training. While the Juniors took things easy following their game of the day previous against Macdonald, the Senior and Intermediate fourteens ploughed up and down the gridiron for more than two hours, engaging in signal practices and passing bouts, and ending up with a fast half-hour's play when the two aggregations faced one another. Following the line-up, the Senior team was put through an extra thirty minutes polishing up the various plays, and it was only with absolute darkness that the players left the field for the dressing room.

Apparently Shaughnessy is going to leave nothing to chance when the Red and White squad takes the field against the M.A.A.A. on Thanksgiving Day. If yesterday's practice was any criterion, the University team will force the Winged Wheelers to fight every inch of the way to gain a victory. The whole McGill Senior squad will feature in the holiday fixture with the possible exception of Flanagan at centre half. The star back has not yet quite recovered from the effects of the Queen's game, and has only been indulging in light practices this week.

Rooters will add greatly to the spirit of the match on Monday. A whole section has been reserved for the "gang" on the grand stand, and Cheer-leader Thompson promises plenty of support for Shag's men throughout the match. Everybody out to help the Red and White "bring home the bacon," is the motto that the rooters have adopted. After the holiday, and by the time of the inter-collegiate games at the McGill stadium, it is expected that there will be more than 1,000 in the Rooters' Club. Four hundred and fifty attended the first big practice yesterday afternoon. Next week it is possible that the club will work out at least once at the stadium. Tickets for the game are selling fast, and a big crowd is anticipated.

Promising form was shown by several of the first team spares at yesterday's bout. Shag had Lezier working at right middle, and the former Toronto plunger was hitting the line with plenty of speed and succeeded in ripping the odd big hole in the seconds' defence. Andy Rutherford filled in at flying wing to relieve Cope towards the end of the practice, and proved a neat ball-carrier while he was on the gridiron. Jack Macdonald worked at right outside, but had little to do. The husky Ottawa player has been out for several workouts this week, but will have a hard time displacing some of the

ABOUT PLAYS AND PLAYERS

An attractive programme has been arranged for the Princess Theatre next week selected from the Harvest of Vaudeville, containing three of the season's most successful Headline attractions and an abundant of added features, comprising a Thanksgiving Festival of Vaudeville Joy. Headlining the bill, Vernon Stiles, tenor, late of The Metropolitan and Chicago Opera Companies, will be heard in a repertoire of operatic and popular songs. Stiles is said to be the best ballad singer known and his programme is composed principally of ballads. One number, "I Never Knew," has been especially written for him by Elsie Janis and Irving Berlin.

Until now Laura Pierpont, who is an extra attraction on the bill, has co-starred with Taylor Granville. Together they have given vaudeville some excellent one-act plays. Now Miss Pierpont has become a star in her own right. Edgar Allan Woolf wrote the play, Mr. Taylor Granville engaged the company and staged the play for her, which is entitled "The Guiding Star" and a comedy drama of decided originality.

Harry J. Conley appears in his new skit, "Rice and Old Shoes." Mr. Conley portrays a "rube" of a decidedly up-to-the-minute class, his modern twists, exceedingly bright dialogue, the capable assistance of Naomi Ray and an elaborate scenic setting make "Rice and Old Shoes" a fine feature.

"The Piano Movers" presented by McDevitt, Kelly and Quinn, is a lively entertaining act, which is rehearsed then and there, Blanche and Jimmie Creighton, offer a funny rural act entitled, "Mudtown Vaudeville," their comic sayings and dancing putting them in the foremost ranks of entertainers. Bud Snyder-Joe Melino Co. are original pantomimists, offering a fast and daring novelty which is full of sensations and wholesome comedy.

"A Bit of Old Russia," presented by Samaroff and Sonia, is a picture of song and dance of their native land. Both are exceptional dancers, being associated with the Ballet of the Royal Court at St. Petersburg before that famous institution closed its doors. One more act yet to be announced will complete the programme.

With next week's play the Orpheum brings to the fore a character known to thousands, "Cappy Ricks." The sturdy, blustering, straightforward, weather-beaten old retired sea captain has already made his introduction through the series of stories, written by Capt. Peter B. Kyne, and in dramatising the best of these Edward L. Rose has given the stage one of the brightest comedies of the decade. "Cappy Ricks" and his cronies are faithful reproductions of types which the author met at close range along the docks in San Francisco, and the yarns they spun for him gave him the material for his stories. The central character in the stories and in the play, Alden P. Ricks (Cappy) was an old sea captain Peter B. Kyne met along the waterfront. In the stories and play he has sketched Sappy and his cronies in their most entertaining moods and the play to be presented at the Orpheum next week contains the best and most entertaining incidents to be found in the story.

One of the best laughing shows of the season is promised at the Gayety theatre when "The Bon Ton Girls" next week are to be the attraction. The organization is presenting this season a merry musical melange entitled "Breaking Into Society," which is said to be replete with laughter-provoking situations and highly humorous lines. "Breaking Into Society" was written by A. Douglas Leavitt, the score being composed by Ruby Cowan and lyrics by Jack Strouse. The staging of the production was under the direction of John G. Jermon, who has evolved many unusual ensembles and has contrived a number of unique specialties. The story relates to the attempt of a number of the newly wealthy to break into the inner social circle of the 400.

The principal comedy roles of the piece are played by George Douglass and John Barry, favorites with burlesque audiences for a number of years. Others in the cast are Jean De Lisie, Lou Barry, Laura Havez, Walter La Foye, Mickey Feeley and Arthur Bernard. The chorus contingent with the show is designated as "The Bon Ton Beauty Bouquet," comprising a score of girls who in addition to being possessed of looks, have the required singing and dancing ability. The engagement of the "Bon Ton" company opens here with the matinee performance on Monday, October 18.

"Buddles"—a novel juvenile offering featuring five "cute, komik, kut-ups" in a melange of harmony and dancing, will be headlined at Loew's all next week. The act is a novel one and some excellent singing and dancing is introduced, in addition to clever comedy.

Edna May-Foster will offer a unique comedy and surprise novelty; Buhla Pearl will be seen in an artistic "song-alogue" with sayings; Vic Stone and the Moyer Sisters will present an artistic conception of music, style, dance and syncopation, and that eminent star, Henrietta Craig, will, with her company, be seen in a clever one-act comedy entitled "The Girl in the Dark."

Mother-love, the greatest force for good in the world, is beautifully exemplified in "The Fortune Teller"—starring Marjorie Rameau, which will be the feature picture. The potency of this love and the mysteries of psychic phenomena are admirably illustrated in this powerful story of a beautiful young wife, dragged into the depths of deg-

RESULTS OF ELECTION TO UNION COMM.

New Faculty Representative
On the House Committee.

CLOSE BALLOTING.

Elections Took Place In the
Faculties Of Arts and
Law.

Balloting for the election of representatives from the Faculties of Arts and Law on the Union House Committee took place yesterday, and the results are on hand to-day. Cock-shutt and Copeland were returned from the Faculty of Arts, the former securing 120 votes and the latter 108. McDougall, the third nominee, got 101 votes.

Thus it will be seen that the contest was very close, and it is a good sign that so much interest was taken in it. Mr. Cockshutt is a member of the Department of Commerce. He made it known before the election that if he were elected to the House Committee he would make a point of seeing that an improvement was made in the supply of magazines and other reading matter in the Union. If he does this, he will fully justify his election.

Harold was returned from the Faculty of Law with 48 votes. His opponent, Chisholm, scored 41.

CHESS PLAYERS ELECT OFFICERS

(Continued from Page 1.)
ing will be held a week from Thanksgiving Day, and Monday evening has been decided as the night on which the weekly meetings will be held.

On occasion was taken at yesterday's meeting to pass a motion expressing intense feeling and regret at the passing away of the club's honorary president, namely Professor T. R. Davies. The election of a new honorary president has been deferred to another meeting.

Emphasis must here again be laid upon the fact that all chess players are asked to become members of the club. It is a wrong impression that a man has to be already an expert player to become a member. The beginner is especially requested to turn out, as it is only by continual practice and helpful hints that his game can be improved. Men who already have a knowledge of the game are asked to turn out as a tournament will be

radition by a brute. Her regeneration through her love for her son forms the basis of this strong drama. "The Fortune Teller" will prove of especial interest to those who have read Sir Oliver Lodge's works on spiritualism. "Uneasy Feet"—an entirely novel comedy conception, and Loew's British-Canadian News Weekly will complete the bill.

There have been cafe sets and cafe sets for countless pictures, but it remained for the New Grand theatre, to show the screen an innovation in mural art, in its presentation of "The Man Who Had Everything," a Goldwyn picture, starring Jack Pickford, which is being shown for the balance of the week. The futurist poster which has for some time been epidemic in Greenwich Village, and extensively used in the little theatre movement, is however still a novelty on the shadow stage.

In the roadhouse scene where Shannon Day, playing the baby vampire, lures her lovers to their downfall, a half dozen or more of these brilliant posters are used. They were made especially for the picture, and are the original ideas of members of a Los Angeles arts and crafts school. Their aggregate cost reaches well into the thousand dollar mark.

One of the most effective and which carries out the vampire idea, is done on a flat finish black background, and is the eternal but ever fascinating Columbine and Harlequin theme. Poor Harlequin stands in the lower corner, gazing at an illusive Columbine, who perches on a great vari-colored sphere over his head, taunting him the while. In her hands she flings out a mesh of gold silk, that swirling down the center of the poster, entangles the unfortunate Harlequin in its folds. The figures are strikingly well-drawn and appear just back of Shannon Day's table in the picture. Art students would do well to watch for this picture in the film.

CLASSIFIED

Students wanted with selling ability, though experience not essential, for spare time work. Can earn from \$20 to \$50 weekly by devoting a few hours each afternoon or evening. See Mr. MacGregor Saturday between two and four, 602 South-am Bldg., 128 Bleury St.

Room to Let

Mance 1924—Just above Laurier. Bright front double bedroom with private family. Suitable for one or two students.

SURGEONS HAD BUSY SESSION IN CONVENTION

(Continued from Page 3.)

The last item consisted of a paper by J. A. Gunn, M.D., of Winnipeg, which dealt with "Treatment of Fractures of the Femur." Dr. F. J. Tees, of Montreal, and Sir William Taylor, of Dublin, concluded the afternoon with a discussion of that subject.

The principal speakers at the evening session of the convention yesterday dealt with the thyroid gland, its secretion and its diseases. The speakers, including Drs. C. H. Mayo, of Rochester, B. W. Crile of Cleveland, and Kendall and Plummer, both of the Mayo clinic at Rochester, are all masters of the subject, and those surgeons who attended were well rewarded. The speakers were unanimous in their method of treatment and surgical technique in operation. Statistics were given to show the enormous decrease recently in the death rate following operations of thyroidectomy, and it was pointed out by several speakers that this was in a measure due to post-operative treatment. Post-operative hyperthyroidism, the principal symptom of which is extremely high body temperature, is now adequately controlled by the use of ice-packs.

Pre-operative precautions to prevent excitement of the patient, which are now employed, are another factor in reducing the death rate. Patients subject to extreme excitement are operated upon in their beds. This measure has been responsible for a reduction in the death rate from three to less than one per cent.

The subject of "Transplantation of the Urter into the Large Intestine in the Absence of a Functioning Urinary Bladder" was discussed by Dr. R. C. Coffey, and commented upon by Dr. C. H. Mayo. The speakers, acting in conjunction, are responsible for the technique of the operation in which successful results have been obtained. Slides illustrative of the method employed clearly showed the difference between Martin's operation and the later one, of which they are the joint authors.

B. W. & F. CLUB VERY ACTIVE THIS SESSION

Boxing Will Start In Ten Days' Time.

INTERCOL. MEET.

Men Are Advised To Start
Some Sort of Training
Now.

The Boxing, Fencing and Wrestling Club is expected to be fully started on its programme for the session in about ten days' time. It is expected that the club will have a record year in every way. The boxing department will probably be in the charge of Sergt.-Major Sharpe. Instruction will be carried out if possible in the new gym. in the Arts Building. If not, it will take place in the ballroom of the Union. An elimination meet will be held just before Christmas for the purpose of selecting men to represent McGill in the Intercollegiate meet.

All men who intend to take up these sports seriously are urged to start some sort of training at once. The stricter the training, of course, the better the results, but it is not essential to start very severely. A limited consumption of cigarettes and stodge food will work wonders. Fresh air, too, is a wonder worker, so go for walks and be outdoors as much as you can. Last year the work had to go slowly at first because the men were in poor condition at the start.

Practise sparring with a friend in your spare time and you will have a good start when instruction begins.

PREPARE FOR HOLIDAY GAME AGAINST M.A.A.A.

(Continued from Page 3.)

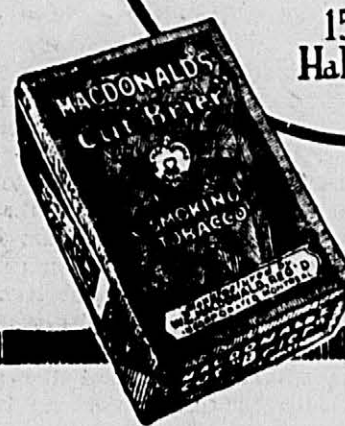

regular men of the first squad. "Bones" Little filled in on the line, and held up his own. A feature of the practice was the manner in which Captain "Dud" Ross ploughed through the intermediates' line for big gains. The big skipper of the squad was right on his toes yesterday, and in his present condition will be a big factor in the forthcoming struggles.

This morning the squad will work out at 10 o'clock, while on Saturday the final practice prior to the M.A.A.A. fixture will be staged at 12 noon.
